

# Pensioner Payroll

Barnett Waddingham LLP provides a pensioner payroll service either as an integral part of our pension administration service or as a stand alone service.

We recognise that payroll administration is a specialised service and smooth operation is essential to a cost effective solution. Flexible retirement options mean that payroll processing is an increasingly complex area. Pensioners are aware of the need for security of payments and require straight forward information.

## Core services

Our comprehensive range of payroll administration services include:

- secure automated pension and tax payments
- e-filing P35 tax returns
- annual P60 for every pensioner
- maintenance of pensioner records
- pension increases
- comprehensive payslip service
- monitoring HM Revenue & Customs limits
- subscriptions and other deductions
- regular administration reports
- tax calculation and accounting
- cash flow forecasts
- tax code changes via internet
- cash management and accounting
- foreign currency conversion and overseas payments
- providing data for client and actuarial valuations.

## BWebstream

We have developed our own suite of pension administration software, BWebstream, to cater for a full range of integrated services, including a payroll module.

Internet technology is at the heart of the payroll module where, for example, we use the internet to e-file year end tax returns and receive changes to pensioner tax codes.

## Specialist services

In addition to our core services, there are other specialist services that we offer, including:

- pensioner communications and dedicated help-lines
- data cleansing
- risk assessment and proof of existence services
- internet access to pension records and payslip history.

## SUMMARY

We provide a high standard of professional services to satisfy the needs of all parties. Whether you are looking for full pension administration or specialist payroll services to complement an existing arrangement then Barnett Waddingham can provide the quality service that you can trust.

APRIL 2009
